INTERNATIONAL GIRL CHILD DAY

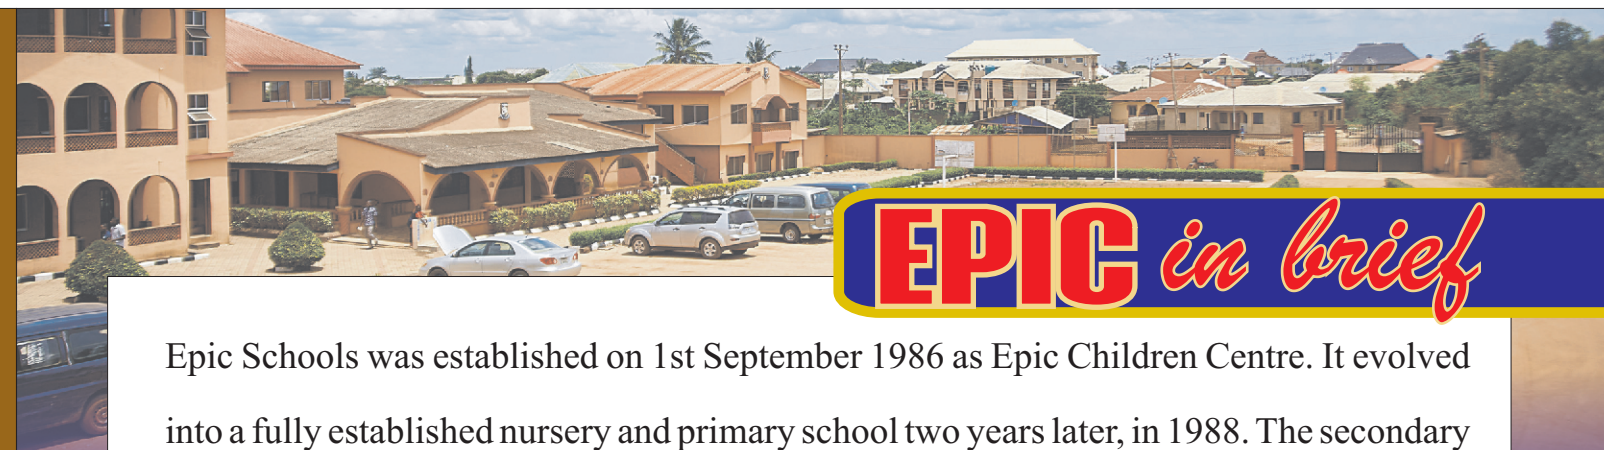

EDITORIAL

It is with great pleasure that I welcome you to this refreshed edition of EPIC NEWS. This publication carries special significance, as it marks almost a decade since our last issue. We are excited to reintroduce this platform as a consistent source of information, reflection, and connection within our community.

Moving forward, EPIC NEWS will be published every term. Each edition will bring you meaningful updates on the key activities, highlights, and achievements of the previous term, along with insights into our plans and priorities for the months ahead. Our goal is to keep you well-informed, engaged, and aligned with the vision and progress of our community.

We trust that this renewed effort will strengthen communication and foster a deeper sense of belonging among us all. Enjoy the read!

Raheanat Sanni-Oluniyi

EPIC in brief

Epic Schools was established on 1st September 1986 as Epic Children Centre. It evolved into a fully established nursery and primary school two years later, in 1988. The secondary arm, Epic Model College, commenced operations in September 1995.

In 2013, the school became a Cambridge Associate School, fully accredited to offer Cambridge examinations from Primary to Advanced Level.

The international branch, Epic International School, Lomé (Togo), was established in September 2009, further expanding the institution into an international group of schools fully equipped with modern facilities in Science, ICT, and other academic fields to meet global standards

- Cultural day:** 23rd February, 2026.
- Second term examination/Eid-el-Fitri:** 16th - 20th March, 2026.

WELCOME PARTY

The annual Welcome Party for returning and new pupils of Epic Junior School, Nigeria, was held on Friday, 17th October 2025. The programme commenced promptly at 11:00 a.m. and was anchored by Mr. Apeye and Mrs. Owolabi. The opening prayer was offered by Mrs. Idowu Deborah, after which Mr. Apeye officially welcomed all pupils and invited the new pupils to the high table. The welcome address was delivered by the Headmistress, Miss Alude. In her speech, she warmly welcomed the pupils once again and encouraged them to take their studies seriously so they can become responsible future leaders. She further urged them to use their time wisely, remain focused, and work diligently toward building a successful future. The new pupils were also advised to conduct themselves properly and abide by the school's rules and regulations. The event featured a variety of exciting activities, including a dancing competition, colour sorting, castle building, and musical chairs. Some new pupils were given the opportunity to share fun activities from their previous schools that could be incorporated into Epic's programme, and they all acknowledged that the school was already doing an excellent job. It was truly a memorable day for all the pupils, filled with dancing, games, laughter, and unforgettable moments.

Royal Day

The annual Royal Day celebration for the pupils of Epic Junior School was held on Tuesday, 18th November 2025. The event was coordinated by the Assistant Head Teacher, Mr. Apeye W. A., with the support of Mrs. Adepelumi, Mrs. Owolabi, and other dedicated teachers.

For this year's celebration, the pupils paid a royal visit to His Royal Majesty, Alayeluwa Oba J. A. Osunsami J.P., Asemowo Olugbadebo I, the Adeleken of Oke-Ako, Ogun State.

The pupils and their teachers graced the occasion in beautifully adorned and colourful cultural attires. Royal Day is specially set aside to introduce the pupils to the rich cultural heritage and diversity of our nation. The event also aims to help them appreciate indigenous items such as gongs, beads, drums, and other traditional artifacts that form an important part of our cultural identity.

Although the pupils could not meet with Kabiyesi directly due to an unavoidable meeting, His Royal Majesty has promised to visit the pupils in person soon.

INTERNATIONAL GIRL CHILD DAY

In honour of the International Day of the Girl Child, a special celebration was held for our female students. The event featured an inspiring talk by a guest speaker on building self-confidence and resilience in the face of challenges, a movie screening aligned with this year's global theme, distribution of souvenirs, and an assortment of snacks.

The day served as a powerful reminder of our commitment to nurturing strong, informed, and confident young women who will persist until their dreams are achieved. It was truly an inspiring and enjoyable occasion for all the girls.

COMMUNITY SERVICE

“Community service is the heartbeat of a compassionate society. It reminds us that when we come together to serve others, we build stronger bonds, foster understanding, and create a world where kindness and support are the foundation. Giving our time and effort not only lifts those in need but also enriches our own lives, contributing to a better, more united community.”

As part of the Nigeria @ 65 celebration, Epicans visited and made donations at an orphanage home, demonstrating the school's commitment to service, empathy, and giving back to society.

SCRIPTURE UNION RALLY

We are proud to announce that our school successfully hosted the annual Scripture Union Rally for schools in our locality, welcoming four other schools. The event was spiritually uplifting, featuring praise, worship, inspirational talks, and the word of God.

We sincerely thank our staff and students for their impeccable hospitality and outstanding organization, which made the event a truly memorable experience for everyone involved.

ICT UPGRADE

In line with the school's commitment to ensuring that Epicans remain up to date in Information Technology, the computer room has been upgraded into a CBT Centre with a seating capacity of 50 students. This development is timely, especially as the West African Examinations Council (WAEC) plans to commence Computer-Based Testing for the Senior School Certificate Examination from 2026.

The school's CBT Centre meets all WAEC and NECO requirements for certificate examinations. All laptops provided meet the approved standards, and reliable Wi-Fi connectivity has been installed to ensure smooth operation.

The centre was successfully tested during the first-term examinations, where all papers included a CBT component that was conducted seamlessly.

EPICANS EVENTS CENTRE

The school's Events Centre, whose construction began several years ago, is now gradually nearing completion. Interior works are currently underway, and steady progress is being made. Upon completion, the facility is expected to rank among the best-equipped school halls in the region. In addition to serving various school functions, it will also be available for social events.

This magnificent edifice is scheduled to be officially dedicated during the school's 40th Anniversary celebration.

40th ANNIVERSARY

Epic Schools began its journey on Monday, 1st September 1986, at 4–6 Sonubi Sonoiki Close, Molipa Estate, Ijebu-Ode. This means that by September 2026, the school will be forty years old. To commemorate this remarkable milestone, a series of activities has been carefully planned.

The celebrations will begin as early as January 2026 and will culminate in a grand finale on Saturday, 31st October 2026. The lined-up activities include literary competitions, sporting events, visits to the less privileged and old people's homes, and inter-school competitions involving invited primary and secondary schools. In addition, awards will be presented to deserving parents, staff, and friends of the school.

The grand finale will feature the dedication of the EPICANS EVENTS CENTRE, a major project sponsored by Epican parents, as well as the remodelling of the school's main entrance, a project proudly sponsored by the school's Old Students Association (EX-EPICANS).

LEADERSHIP STUDIES FOR SENIOR SECONDARY STUDENTS.

The founder of the school commenced a leadership training program with the senior secondary school students in Nigeria and Togo during the term.

According to him, it has been a long term desire which he is glad to be able to actualize. He is ably assisted in Nigeria by the guidance counselor Mr. Johnson, and in Togo by the principal. The duo would take the classes whenever he is not around. The curriculum as well as the content have been designed. It would be turned into a book in 2026.

With it he hoped to turn the Epicans into well informed and transformative leaders in the future

CELEBRATING OUR STUNNING VICTORIES

1. We are proud to announce that our students emerged as the overall champions at the recent Inter-School Survival Competition organized by City of Knowledge Academy on 4th November 2025. The competition tested their critical thinking, problem-solving, and teamwork skills. Congratulations to our amazing champions!
2. We are equally thrilled to share that our students were recognized as the overall best school at the prestigious Adewale Students' Conference in the Ijebu North-East region. This remarkable achievement reflects their hard work, brilliance, and the dedication of our staff. Well done to all involved!
3. Our talented athletes also showcased their skills, sportsmanship, and team spirit in competitions with other schools:
 - Quite Pretty Children School: Boys – 2nd position, Girls 3rd position
 - Adeola Odutola College Private: 2nd position

A big well done to all our student-athletes for their hard work, dedication, and exemplary conduct!

AN ESSAY ON EPICAN'S NEW ICT SYSTEM

Epican School recently **UPGRADED** a new Information and Communication Technology (ICT) system, marking an important step toward preparing students for a digital future. This modern platform replaces several old and disconnected tools by bringing learning, communication, and administrative functions together in one cloud-based system. This essay explains why the school upgraded its ICT system, describes its main parts, discusses its impact on teaching and learning, highlights some challenges faced, and looks at how the system can improve in the future.

The decision to adopt a new ICT system came from several challenges the school was facing. First, the old system often had bandwidth issues and frequent downtime, which interrupted lessons and made work stressful for teachers and students. Second, as blended and remote learning became more important, the school needed a system that supported video conferencing, real-time collaboration, and easy access to digital materials from any device. Lastly, the school needed one unified system to simplify tasks like attendance, grading, and report generation so that teachers could focus more on teaching.

The new ICT system has three main modules:

Learning Management Module (LMM):

This is the main area for teaching and learning. Teachers can upload lesson notes, videos, and quizzes, while students can submit assignments, view their results, and join discussion forums. It works smoothly on laptops, tablets, and smartphones.

Communication Module:

This module allows secure messaging, announcements, and a shared calendar that connects teachers and parents. It helps maintain clear and timely communication across the school.

Administrative Module:

This part of the system handles attendance, timetable creation, and report card generation automatically. It collects information from the LMM, reducing mistakes and saving time.

Since the new ICT system was **upgraded**, it has brought positive changes to the school. Teachers have noticed that students participate more actively because interactive quizzes give instant feedback. This has improved engagement and made it easier for teachers to provide tailored instruction based on students' needs.

Conclusion

In conclusion, Epican's new ICT system has greatly improved how the school teaches, communicates, and manages its daily activities. Although there were challenges during the transition, the system has already shown its value by increasing efficiency and enhancing learning. With continuous updates and support, the system will help Epican School remain well-prepared for the demands of modern education.
